## **Document Management Solutions**

### **Assess**

Using powerful print-cost analysis software, our specialists work with you and your team to uncover "hidden costs" associated with your current document environment. We conduct a full, comprehensive audit of your current assets related to printing and document imaging, providing you with a line-by-line assessment of your equipment, volume, and bottom-line costs.

### **Customize**

We understand that each customer is unique, and has different printing needs. That is why we train our specialists to think outside the box, and to develop a solution that is customized to your needs.

### **Optimize**

Following our analysis, we will present you with our detailed, step-by-step solution proposal, customized to your organization with the overall goal of reducing expenditures and taking the headache of day-to-day management of your printing fleet off your shoulders.

For one low cost-per-page, we provide all the consumable supplies and service for your printer fleet. At no additional cost, we monitor in real-time all of your networked devices, regardless of the make. This proactive system has shown drastic results in reducing downtime and improving performance in offices worldwide.
